PROJECTS

UNO Online   https://uno-online.onrender.com/
github.com/gabrielbelcher/uno-online

- An online, real time multiplayer version of the UNO card game.
- I utilized this project to develop skills in React, TypeScript, and WebSockets.

Automated Farm Monitoring / Sheep Identification
github.com/gabrielbelcher/sheep-identification-project

- Enhance farming efficiency with automated livestock data monitoring for remote farm owners.
- Created in collaboration with Kauricone, utilizing their IoT hardware.

WORK EXPERIENCE

Tremor Audio   Feb 2022 – Jun 2023
Guitar Tech & Sales   *Howick, Auckland*

- Tremor Audio is an independently owned music store based in Howick.
- I was brought in to help manage the store on alternative days to the owner, as well as bring experience in guitar servicing and repairs.
- I create all marketing material and graphics for social media, advertising, and in-store features.
- During the development of the new website, I created media that is used throughout the site.
  - Created SVG logos for store brands and payment methods.
  - Filmed and edited a short video used for marketing across the store's social media.
- Oversaw the switch to new POS software, I organized the setup as well as trained the store owner and other employee.
- Ran an introductory guitar course designed for primary/intermediate kids.
  - Successfully taught five kids the basics of guitar over five weeks.

EDUCATION
